Second Eastern Iowa Coffee and Donut Hangar Talk Fly-In attracts several Airplanes and pilots

The first Coffee and Donuts Fly-In was held at Monticello, Iowa in mid April. 8 – 10 people flew in. Last Friday (5/1/2009) we decided to have another at the Dyersville airport. E-mails were sent out to all API members with addresses on file and other pilots interested in these events informing them there were donuts and coffee available on Sunday (5/3/2009). I was pleasantly surprised when several aircraft flew in and the passengers filled the pilot lounge to standing room only. When the weather gets warmer we hope fill the hangar for the fly-ins. This is very little work for the hosting airport and is a lot of fun for the pilots.

At the next API meeting in Monticello the fly-out will be discussed. We must set up a calling circle for those that do not read or have e-mail. The schedule will also be put on the calendar when confirmed.

Dick Bartholomew sets up the Warrior for landing.

We will be setting up another fly-in shortly. Watch your e-mail and the calendar on the website for details.

Pilot thoughts

The scientific theory I like best is that the rings of Saturn are composed entirely of lost airline baggage.

An old pilot is one who can remember when flying was dangerous and sex was safe.

Both optimists and pessimists contribute to the society. The optimist invents the aeroplane, the pessimist the parachute.

-May Meeting -
6:30 p.m Tuesday May 12, 2009
MXO Hangar
Bring a meat to cook and a dish to pass
